

OUTLAWS™

INSTALLING OUTLAWS

PLEASE NOTE: To be able to run OUTLAWS, you must have Windows 95 as your operating system. If you have a different OS (such as OS/2 or Windows NT) we cannot guarantee compatibility.

DirectX: During the installation, OUTLAWS will prompt you to install DirectX if it is not already installed on your system. Microsoft's DirectX is an application that will allow OUTLAWS to have instant access to your system hardware in the Windows 95 environment, and will help OUTLAWS take advantage of advances in video, sound, and improved network capabilities that will be used during multi-player gaming.

Since DirectX is relatively new in the computer world, we have found that some older

video cards may not be fully compatible with applications that use it. Luckily, many manufacturers are releasing updated drivers that are serving to enhance their card's compatibility with DirectX. If you are unsure whether or not your video card will support DirectX, please contact the manufacturer of your video card or system for further information. The manufacturer of your video card should also be able to provide you with instructions for updating your video drivers. Review the on-line TROUBLESHOOTING GUIDE to get the latest update on video card drivers that affect gameplay.

To begin the installation:

Boot up your system and place the Outlaws CD into the CD-ROM drive. If you have the "Auto-play" option for Windows 95 active, the installation menu will automatically come up on your screen. If the installation menu does

not automatically appear, then double-click on the "My Computer" icon on your desktop, and once it is open, double-click on the D: icon (or the icon for your CD-ROM drive if it is a letter other than D). Then double-click on setup.exe.

Once the installation menu appears on your screen, you can begin the installation by clicking on **INSTALL OUTLAWS**. The Windows 95 Installation Wizard will guide you through the installation process. Towards the end of the process, you will have the option to create an **OUTLAWS** program group.

Once the installation has been completed double-click on CD-ROM icon to bring up the launcher. You can start the game by clicking on the **OUTLAWS** icon in the **LUCASARTS\OUTLAWS** program group or by clicking on the **PLAY OUTLAWS** button on the launcher.

If you encounter any problems, please see the **OUTLAWS** manual for further instructions, or you can access the **OUTLAWS** built-in online help guide by clicking on **TROUBLESHOOTING** from the **OUTLAWS** Launcher, or you can visit Yoda's Help Desk at the LucasArts website <http://www.lucasarts.com>.

Box 10307, San Rafael, CA 94912

INSTALLATION OPTIONS

During the installation, you will have the option to select either a **STANDARD** or **CUSTOM** installation. The **CUSTOM** installation will allow for you to install a larger portion of **OUTLAWS** onto your hard drive. In doing so, you will be able to decrease the loading times for each of the levels, and enhance game performance.

STARTING THE GAME

You can begin the game by clicking on **PLAY OUTLAWS**. The first thing that you will see is a cinematic cutscene. If you wish to bypass this cutscene in the future, press the **[ESC]** key. After you finish watching the cutscene, or bypass it by pressing the **[ESC]** key, you will arrive at the **OUTLAWS** Main Menu.

MENU SCREENS

When navigating through the game menus, you will notice that each of the menu choices become highlighted when the mouse pointer passes over it. To activate one of the menu options, click the left mouse button when the menu choice is highlighted. Alternately, you

may also use the arrow keys on the keyboard to scroll through the menu choices, and press the ENTER key to make a selection.

From the Main Menu you will have the option to start three different types of games:

Main Game

Selecting this option will begin the single person adventure.

Multiplayer Game

Selecting this option will bring you to the Multiplayer setup menu. For more information on configuring a multiplayer game, please consult the OUTLAWS manual and/or the Internet Guide.

Historical Missions

Selecting this option will allow you to play a variety of built in missions. For more information on the Historical Missions option, please consult the OUTLAWS manual.

KEY FUNCTIONS

During the game, you can press the [ESC] key to access the Game Options menu. From there, you will have the option to save a game (SAVEGAME), load a previously saved game (LOAD), select (OPTIONS) to adjust volume and brightness, or to exit the game. Additionally, there are various keys that will be used throughout the game.

The following is a list of the default functions for the keyboard keys as they are used during the game:

Movement

 OR  = Move Forward

 = Turn Right  = Turn Left

 OR  = Move Backward

 = Move Fast
(Hold down when pressing one of the arrow keys to run).

 = Nudge (used when opening doors etc.)

 OR  = Jump

 = Crouch

 = Slow Mode
(Caps Lock)

**These keys are for use with mouse and keyboard play.*

> OR **Alt** + **→** OR **D*** = Strafe/Dodge Right
< OR **Alt** + **←** OR **A*** = Strafe/Dodge Left

*These keys are for use with mouse and keyboard play.

Default Mouse Configuration

Weapons

As you progress through the game, you will encounter a variety of different weapons. To select a weapon, press one of the number keys on your keyboard. The following is a list of the weapons you will encounter, along with their corresponding number key:

1 = Fists

2 = Pistol

3 = Rifle and
Toggles Scope

4 = Single Barrel Shotgun

5 = Double Barrel Shotgun

6 = Sawed-Off Shotgun

7 = Dynamite (press Z to light,
and CTRL to throw)

8 = Bowie Knife (Press Z to use as a
stabbing weapon, or CTRL to throw)

9 = Gatling Gun

How to use a weapon:

Ctrl = Primary Fire

Q OR **Z** = Secondary Action key

R = Reload

Other Key Functions

I **I** = Scroll Through Inventory

Enter = Select Item/Use Item

Tab = Overhead Map

L = Lamp
Toggle

O = Disarm

= OR **-** = Change Screen Size

Alt **T** = Subtitles
(for movies)

Alt **M** = Music
Toggle

Alt **P** = Pause
Game

G = Drop Item

; **'** = Change map level

Many of the keys listed above can be reconfigured by using the custom configuration menu. To change the default functions for the keys, press the [ESC] key during the game, select **OPTIONS**, and select **KEYBOARD**. This area will also provide you with additional information on key functions.

Multiplayer Keys

The following keys are only active during a multiplayer game:

UNINSTALLING THE GAME

To remove OUTLAWS from your system:

Boot up your system and place the OUTLAWS CD into the CD-ROM drive. If you have the "Auto-play" option for Windows 95 active, the OUTLAWS Launcher will automatically come up on your screen. If the OUTLAWS Launcher does not automatically appear, then double-click on the "My Computer" icon on your desktop, and once it is open, double-click on the D: icon (or the icon for your CD-ROM drive if it is a letter other than D).

Once the OUTLAWS launcher appears on your screen, you can uninstall the game by clicking on **UNINSTALL OUTLAWS**. The Windows 95 Uninstall Shield will guide you through the removal process. You can also uninstall through the Add/Remove program icon in the Windows control panel.

HINTS & TIPS

- ⊕ Make sure that you are using Disc #1 to install the game. You will not be able to install the game using Disc #2 (This is true for both the single player, and Multiplayer versions of the game).
- ⊕ If you find that the music levels are too loud or quiet, and are unable to change the volume through the Outlaws volume configuration screen, then you may adjust these levels using the volume control icon. Use the **ALT + TAB**

keys to go to the desktop, then double-click on the speaker icon in the corner of the taskbar.

✧ Please make sure that you have the CD audio cable connected correctly between your sound card and CD-ROM to have all of the music in the game.

✧ For Optimal Performance during network play, it is recommended that the game be hosted on a fast machine (P120+) with a PCI Network Adapter. Having more than 16MB of RAM in the host also improves network performance and stability.

✧ While playing Outlaws, we suggest that you do not use CTRL-ALT-DEL, as this may cause your system to freeze up or it may crash with a looping sound playing.

✧ If you are playing in 320X200, we recommend that you do not task switch during game play.

ADDITIONAL SUPPORT

If you encounter any difficulties, LucasArts has provided you with a variety of sources to obtain further information.

ReadMe File

You can read about last minute updates included in the Readme file by clicking on VIEW README from the launcher.

Troubleshooting Guide

You can access the online Troubleshooting guide by clicking on TROUBLESHOOTING from the OUTLAWS Launcher.

Yoda's Help Desk

We are proud to feature Yoda's Help Desk, which is available in the Technical Support section of the LucasArts website <http://www.lucasarts.com>. Yoda's Help Desk offers interactive solutions to technical issues based on information provided by you. Visitors to Yoda's Help Desk will be able to receive technical support 24 hours a day, seven days-a-week.

How to Contact LucasArts

LucasArts has set up a variety of services to provide you with information regarding our latest games, hint & gameplay assistance, and technical support.

Hint Line

U. S. - If you need a hint, you may call our automated Hint Line. This service costs .95 cents per minute, requires a touch tone phone, and you must be at least 18 years old or have your parents permis-

sion to call. The number is **1-900-740-JEDI** (1-900-740-5334). The option to speak with a live Hint Operator is also available from this number. Average call length is 3 minutes.

Canada - Our Hint Line is also available to our Canadian customers. This service costs \$1.25 (U.S.) per minute, requires a touch tone

phone, and you must be at least 18 years old or have your parents permission to call. The number is **1-900-677-JEDI** (1-900-677-5334). Average call length is 3 minutes.

Where To Find Us Online

There are a variety of ways to get in contact with LucasArts online.

LucasArts Web Site (www.lucasarts.com)

You can reach us through the Technical Support section of the LucasArts Web Site (www.lucasarts.com). From there, you will have the option to receive online technical support through Yoda's Help Desk, browse technical documents, or leave a message for an online representative.

CompuServe You can send e-mail to ID# 75300,454 or post a message in the LucasArts section of the Game Publishers Forum A. To get there GO GAMAPUB

Internet E-Mail You can reach us through the internet by sending E-mail to the following address: 75300.454@compuserve.com

Technical Support

Technical Support Phone Number

This number is for Technical assistance only. Hints will not be given out over the Technical Support line.

If you need technical assistance, please don't hesitate to contact us after reading the Troubleshooting guide and the Readme file.

For your convenience, if you cannot get through to a representative by phone and you have access to a fax machine or any of our online areas, please consider contacting us through one of these alternate means.

When contacting us, please be sure to provide us with as much information as possible. Make sure to note the exact type of hardware that you are using in your system, including: your Soundcard, CD-ROM Drive, amount of RAM present, speed and manufacturer of your processor, and the specific type of modem that you are using (for questions involving mutli-player gaming). Also, make sure to include the title and version of the game, and a detailed description of the problem. When sending us a fax, please include your name, return fax number with the area code, and a voice phone number so we can contact you if we experience any problems when trying to fax you back.

You can reach our Technical Support department by calling **1-(415)-507-4545**. We are available to help you Monday-Thursday from 8:30 AM-5:30 PM and on Friday from 8:30 AM-4:30 PM (Pacific Standard Time).

Technical Support Fax

For your convenience, we also offer the option of faxing us with your Technical questions at 1-(415)-507-0300.
